Surveillance/Security

Security staff will guard the exhibition hall from the beginning of the stand assembly to the end of the dismantling periods. The organizer cannot be held responsible for any losses due to theft.

Stand boundaries

The area rented is marked out by the organizer. Stand boundaries must be strictly observed. As the exhibitor has exceeded the stand boundaries and does not respond to the request of removing his products immediately, the additional area will be invoiced with 113.00 EUR/sqm.

Provision on Selling

The sale and/or handing out of food, drinks and other products as well as the sale of goods and samples require explicit permission of the project management. A sketch of the part of the stand used for sale/distribution of food, goods or samples must be handed in. If food is offered, enough space for consumption and waste bins for garbage must be provided. Any sale or sampling activities which use the aisle and/or neighbouring stands are not allowed.

Waste Disposal/Environmental Protection

The exhibitor is responsible for the proper and environmentally acceptable disposal of all wastes that he produces during the fair and during erection and dismantling of the stand. Any materials left behind will be disposed of without verification of their value and at the exhibitor's expense, a higher charge being payable.

Recyclable materials and/or least harmful to the environment are generally to be used for construction and running of the stand.

Transportation of exhibition goods

The exhibitor is kindly requested to address his goods to the exhibition forwarding agents SCHENKER Deutschland AG, St. Petersburger Str. 1, DE-20355 Hamburg (Schenker Pavillon) and not to the organizer. SCHENKER has the facilities to store the goods until the beginning of the event. To order these services please use the order form in the service manual.
